- 3.) Holtsville, 249 Buckley Road, Holtsville, NY

PLEASE NOTE: All instruction is full group instruction. Our groups are made up of approximately 20-30 children. In order to maintain safe staff/counselor ratios our counselors do not provide individualized or small group instruction. Campers need to stay within their group during all activities of the daily rotation. Our counselors do not have the training to carry out individualized plans. Considering this fast pace, it requires each child to have a level of independence to participate in all activities and handle transitions with ease. Campers are under the direction of their camp counselors and site supervisors and need to follow instructions from the counselors as well as follow behavior guidelines. In a group atmosphere they need to be able to change themselves to go in the pool and must be toilet trained. Campers also need to be able to advocate for themselves if they are hurt or not feeling well. Summer Fun Day Camp prides itself on being an action packed program. Allowing children to continually sit out of activities is not allowed. Of course exceptions can be made in the case of injury or illness but parents will be informed if the request to not participate becomes an issue for counselors.
